English

Hindi

# KARAN GUPTA

## PROFILE

I am an inquisitive and analytical person. Always eager to learn new things and willing to take end-to-end responsibility. I am adept at balancing leadership and collaboration, stepping up as a leader or supporting as a team player as needed. I believe in solving real world problems in an optimistic way.

## PROJECTS

### Full Stack E-Commerce website

July 2024

#### Tech Stack: MongoDB, Express, ReactJS & NodeJS

- Built a robust e-commerce website using the MERN stack, implementing features like user authentication, product management, and order processing.
- Designed and developed a responsive and user-friendly frontend with React, employing Tailwind CSS for styling, ensuring a modern and intuitive user interface.
- Implemented RESTful APIs using Node.js and Express.js, ensuring secure and efficient data handling with MongoDB for managing user data, product information, and transactions.

### Movie Recommendation System

Feb 2024

#### Tech Stack: Python, Machine Learning.

- In this project users can get the suggestion of the most viewed/hit movies according to the data available ( Likes and Dislikes).
- Implemented collaborative filtering and content-based recommendation techniques, enhancing the system's accuracy and diversity of movie suggestions.
- Implemented a user-friendly front-end interface for users to interact with the Movie Recommendation System.

### Portfolio

June 2024

#### Tech Stack: HTML, CSS, JavaScript, ReactJS

- Showcased expertise and skills by shaping a comprehensive narrative of impactful career milestones.
- Designed an elegantly responsive UI/UX, prioritizing aesthetics and functionality for seamless user interaction.

## ACHIEVEMENTS

### Competitive Programming

Since 2023

**Leetcode** - Completed 250+ algorithmic questions on LeetCode, showcasing strong logic building and problem-solving skills.

### Analytical Skills

Nov 2023

Secured 1st position in the competition with solving 80 questions within 2 hours which showcased quick analytical and critical thinking capabilities.

## CERTIFICATIONS

### Data Structures and Algorithms

June 2023

#### Platform: Geeks for Geeks

This Course covered fundamental to advanced DSA concepts with practical problem-solving and assessments.

### Database Management System

Nov 2022

#### Platform: Great Learning

Mastered SQL, database design, and data management through comprehensive coursework and practical projects.

### Introduction To MongoDB

July 2024

#### Platform: MongoDB

Gained the foundational skills and knowledge needed to get started with MongoDB.
